*Rapid economic development and urbanization  
requires massive new investments that could be a  
great opportunity for governments and  
stakeholders to mitigate the impacts of future risks  
by building resilient infrastructure for sustainable  
urban development. This event will explore the  
essential elements of building resilient  
infrastructure to provide practical guidance for  
policymakers and practitioners who are aiming to  
promote the New Urban Agenda, the Sendai  
Framework for Disaster Risk Reduction, the 2030  
Agenda, the Paris Agreement, and other  
international agreements facilitating sustainable  
urban development.*
